## Solder Dross Separator

Price per Unit (piece): [Call for Pricing](#)

[Solder Dross Separator](#)

Dross before separation

Dross before separation

Solder after separation

## Feature

Cost reduction:	Solder procurement cost and related expenditures can be reduced thanks to solder recycling.
In-house recycling:	Increased from zero to 70% (immediate solder recycling is possible)
Environment-friendly:	70% reduction of industrial waste.
Support of lead-free solder:	Lead free solder produces four times as much oxidized residue as ordinary solder. So, the support of lead-free solder contributes greatly to cost reduction.
Safety:	Redundant earthquake-resistant and heater temperature management functions.

Easy of handling:	The unit is compact, light weight and also fitted with casters, which can be relocated easily.
