# Line Gauge for trace and finger width/space measurement.

Price: [Call for Pricing](#)

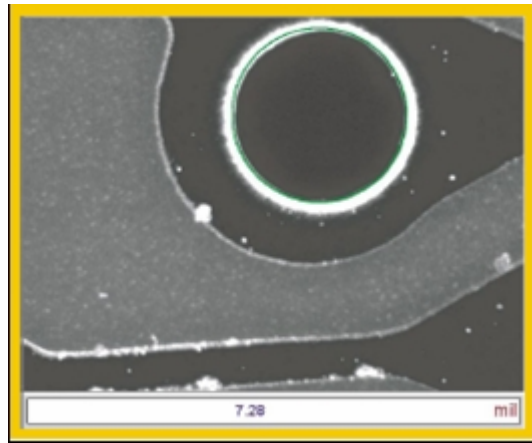

## Brief Introduction

Since its first launch into the market in 2003, SupeGauge has immediately obtained market acceptance and high recommendation, with its new opinion of measurement, meticulous design, innovation, and good service. As a further step in improving PCB, we have developed LG-2000 with a focus in addressing trace width measurement for recognize top and bottom. LG-2000 has kept the original advantages of SuperGauge, and had red circle-LEDs of 32 grain to provide complete light source to capture precise image.

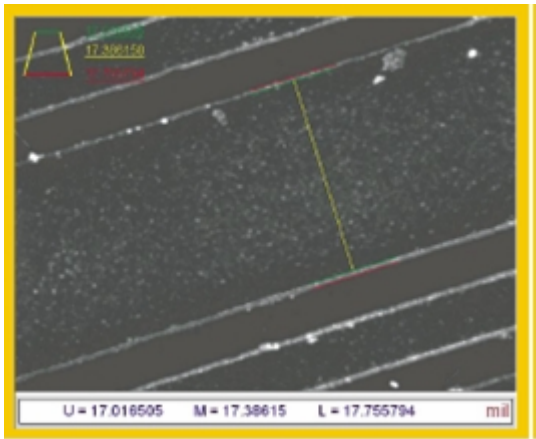

## Feature

Red circle-LED of 32 grain to capture correct image Conveniently measure top and bottom trace width Easy to use and accurate to measure Applicable on SuperGauge directly

## Hole Measurement

## Trace space and width measurement

## **UnderCut Measurement**

### **LG -2000 Specification**

**Dimensions** 120 x 120 x 210mm ( L x W x H )

**Weight** 0.8Kg

**Lens** 6X Optical Lens

**Light** 32 Grains Red Circle-LED

**Min Spec.** 0.5mil

**Max Spec.** 40mil

**Optical resolution** 0.78 m

**Power** AC 110/220, 60Hz, 500W

**Operation System** WindowsXPP

**Attachment** User Manual, Base

**Option** Printer, T/H Sensor

**Measuring Function** Line Widths, Line space, Hole measuring
